Gaurav Raj

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer specializing in React.js and skilled in JavaScript and Git. Collaborative team player with a talent for crafting visually appealing and user-friendly interfaces. Proficient in both front-end and back-end development, I am actively seeking a job opportunity in a technology-driven organization to further enhance my skills and knowledge.

PROJECTS

1. The Street Bites | 🌐 | 📱

React | Chakra UI | CSS

- Implemented a user-friendly menu card showcasing various fast food items with images, names, categories, and prices.
- Enabled user and admin registration and authentication functionality for secure access.
- Implemented a shopping cart where users can add items, view selected items, and see the total order value.
- Designed an order placement process, allowing users to enter their name, delivery address, and card details for payment.
- Individual project completed within a span of 5 days.

2. Electronix Express | 🌐 | 📱

React | Chakra-UI | Redux | CSS

- Led a team and served as a Team Lead in the development of Electronix Express, an e-commerce platform specializing in electronic products.
- Developed and implemented an efficient user and admin authentication system using React, Chakra-UI, and Redux.
- Designed and developed interactive product pages with detailed information, allowing users to browse and purchase a wide range of electronic items.
- Implemented shopping cart and wishlist functionality, providing users with a seamless shopping experience.
- Created an efficient admin panel for product management, enabling the management team to easily add, edit, and delete products.

3. INR Club | 🌐 | 📱

HTML | CSS | JavaScript

- Developed a hotel booking website using HTML, CSS, and JavaScript
- Implemented user authentication functionality for secure access to the website
- Created an admin panel for hotel management, allowing addition and editing of hotels and their details
